

ENVIRONMENTAL POLICY

Diablo Resources Limited (Diablo) is a US focussed copper-gold exploration company which trades on the Australian Securities Exchange (ASX:DBO).

Diablo is committed to ensuring that where we operate, we engage with communities and stakeholders to understand the social, cultural, environmental and economic implications of our activities and will be guided by the following principles:

Diablo undertakes to:

- Comply with all applicable laws, regulations and license conditions in the jurisdictions in which it operates.
- Ensure environmental risks/hazards are recognised and managed effectively.
- Incorporate environmental impact assessment into all significant planning processes and ensure that asset-level assessments are accessible to affected communities. Seek to implement measures to avoid, minimise, mitigate or compensate for adverse business-related impacts.
- Introduce strategies that seek to reduce resource consumption, waste disposal and environmental emissions including recycling and pollution control.
- Closely manage the transport, storage, use and disposal of hazardous materials to mitigate risk.
- Use water responsibly and efficiently.
- Provide our people with training aimed at allowing them to effectively identify, address and report environmental hazards, incidents, risks, and opportunities.
- Set company targets to drive accountability and improve environmental performance.
- Environmental performance will be considered during due diligences, mergers and acquisitions.

This policy applies to all Diablo employees including contractors and consultants and is applicable to all avenues of Diablo business interests including operational and exploration sites
